

# BRITISH RETORT TO TEUTON NOTE

Sarcastic in Reply Regarding the Baralong Case.

Deny Submarine Blockade an Act of Reprisal.

Claim Germans Alone Reject Investigation.

(BY ATLANTIC CABLE AND A. P.) LONDON, Jan. 18, 6 p.m.—The British official view of the German note regarding the Baralong case was given out tonight as follows:

"The Germans claim that their army and navy have observed during the present war the principles of international law and humanity and that the German authorities take care that all violations will be carefully investigated and punished. "Some surprise is expressed that the nation whose armed forces have been responsible for the sack of Lovain, the murder of hundreds of unoffending men, women and children on the Lusitania and other ships, the introduction of poisonous gases, the poisoning of wells, attempted torpedoing of hospital ships, and countless other atrocities should describe their methods of warfare as humane.

"With regard to the destruction of the British submarine E-13 in English waters by a German torpedo boat destroyer, it is claimed that it came to a fight between the war vessels and that the submarine destroyed itself with gunfire. The true facts are as follows:

"The Germans found the submarine E-13 in neutral waters and incapable of either offense or defense. The German destroyer fired a torpedo at the E-13. The torpedo exploded close to her. At the same moment the German destroyer fired with all her guns and the commander of the E-13, whose submarine was afloat and was unable to defend himself owing to being around, gave orders to the crew to abandon her. While the men were in the water they were fired on by machine guns and with shrapnel.

"The Germans defend their action in the case of the E-13 on the ground that it was a measure of reprisal in accordance with measures announced by the German government in February, 1915. It is claimed that the reprisals are legitimate owing to the action of Great Britain in attempting to cut off from Germany all imports and exports. "This is, of course, quite untrue, the exact opposite being the case. As far back as December 11, 1914, Admiral Von Tirpitz foreshadowed the submarine blockade of Great Britain as a measure of reprisal against German trade which the German government now try to maintain by the cause of their submarine policy.

"Further, on February 14, the German government declared their intention of instituting a general submarine blockade of Great Britain and Ireland with the avowed purpose of cutting off all supplies from these islands and this blockade was put into effect on February 18. "It was only on March 11 that the British government put into force as a means of reprisal measures against German trade which the German government now try to maintain by the cause of their submarine policy.

"With regard to the German refusal to submit the Baralong case and the three cases put forward by the British government for investigation by an impartial neutral tribunal, this action seems hard to explain if the Germans are really so convinced as they say of the guilt of the British commander and the innocence of the perpetrators of these outrages cited by the British government.

"So far as the British government is concerned, it is entirely untrue to say that the British government has refused a just demand for investigation. They have proposed it and it is the Germans who have rejected it, doubting because they know full well that the cases in which they are defendants would be decided against them by any impartial tribunal.

# CONFESS PLANS OF NIGHT RIDERS.

MISSOURI GANG TRAPPED BY DETECTIVES.

Long List of Intended Crimes, Including Murder and Burning Towns, Told in Court—Purposes to 'Improve Conditions of Laborers and Tenants.'

(BY A. P. NIGHT WIRE.) NEW MADRID (Mo.), Jan. 18.—How the plans of night riders of Southeast Missouri, who burned several towns and killed the leading merchants, manufacturers and land owners in those towns were frustrated by the arrest of sixty-seven members of the secret band several months ago was told on the witness stand in court here today by confessed night riders, who are being tried on charges of "assault with intent to kill" and "conspiring with intent to kill."

"Jerusalem" was the pass word of the night riders. To do the bidding of the majority was the way and "death" was the penalty for failure to obey, according to the testimony of Hobart Shipman, Walter Wilby and George Berry.

"This trial, with more than three score others, were arrested several months ago after the night riders had slain six detectives who had spent two weeks in the woods and swamps of New Madrid and surrounding counties, working to lure attacks by the night riders by day and spying on their meetings by night.

At the time of the arrests, Wilby and Shipman testified today, the night riders were planning to attack Gideon, Mo., kill three designated prominent citizens and then burn the town. Next they were to attack Clark, Mo., kill five marked men and burn the city. The discovery that detectives were among their number caused them to defer their plans, they said, and the arrests prevented execution of the plans.

# APPROVES KODAK DECREE.

Reorganization of Company Will be Required Says Counsel.

BUFFALO (N. Y.), Jan. 18.—Judge John R. Hazel of the Federal District Court today notified interested counsel that he had approved the outline of the decree submitted to the government for the separation of the business of the Eastman Kodak Company. The decision does not mean that a dissolution will be ordered, but it will require reorganization, it was said by counsel.

Judge Hazel said he would not sign the final decree until the company's lawyers have had time to appear before him with any objections they may have to its phrasing. Complaints with the order must be made within thirty days after the decree is signed.

# CANADA AS PRIZE.

GERMANY'S DESIRE.

(BY ATLANTIC CABLE AND A. P.) OTTAWA (Ont.), Jan. 18.—James Loughheed, government leader in the Senate, declared in a speech in the upper house of Parliament today that Canada was a prize of war should she be victorious in the present conflict. Some Canadians, he said, could not realize that Canada was in as great jeopardy as Great Britain or any of her allies.

# HOUSE ADOPTS RULE TO HASTEN DEBATE.

(BY A. P. NIGHT WIRE.) WASHINGTON, Jan. 18.—With only three faint "noes" the House today adopted a resolution reviving the "calendar Wednesday" rule, so as to speed up its work. Hereafter debate on a bill considered on calendar Wednesday will be limited to two hours and the committee will be permitted to occupy more than two Wednesdays with its business.

# FERRIS BILL PASSES.

Measure to Create System of 640-Acre Stock-Raising Homesteads on Arid Lands in Seventeen States Goes Through the House.

(BY A. P. NIGHT WIRE.) WASHINGTON, Jan. 18.—The Ferris bill to create a system of 640-acre stock-raising homesteads on arid, semi-arid and mountainous lands in seventeen States, was passed today by the House. All three of the administration conservation measures providing for water power development, mineral leasing and larger stock-raising homesteads now await the action of the Senate.

The Senate Public Lands Committee already has reported an identical homestead bill and is expected to bring out soon a bill identical with the House measure for water power development. So far the bill for leasing mineral lands has not made any progress in the Senate.

The new homestead bill provides that the lands affected cannot be entered until they are designated as subject to entry by the Secretary of the Interior, but applicants for homesteads are given preferential rights until the lands are so designated. Governmental mineral rights on the homesteads.

An amendment adopted today, proposed by Representative George F. Baker, of South Dakota, would permit entrymen to make a second entry within twenty miles of the first claim.

# INDICTMENTS QUASHED.

Former Directors of New Haven Will not be Prosecuted.

(BY A. P. NIGHT WIRE.) NEW YORK, Jan. 18.—The indictments against George F. Baker, T. Dewitt Cuyler, Theodore N. Vall, Francis T. Maxwell and Edward Milligan and Alexander Cochrane, former directors of the New Haven Railroad charged with criminal conspiracy to violate the Sherman anti-trust law, were quashed today by Federal Judge Hunt.

# MCKINLEY DOLLARS SOON TO BE COINED.

(BY A. P. NIGHT WIRE.) WASHINGTON, Jan. 18.—A hundred thousand gold dollars commencing the issuance of the \$300,000 memorial building soon to be dedicated at Niles, O., in honor of William McKinley, will be coined under a bill favorably reported today by the House Committee on Coinage, Weights and Measures. The McKinley Birthplace Memorial Association is to be permitted to sell the coins at premiums to pay for construction and maintenance of the building.

# SANTA MONICA WOMAN LOST.

Supreme Court Reverses Award Made by State Industrial Commission.

(BY A. P. NIGHT WIRE.) SAN FRANCISCO, Jan. 18.—An award of \$3000 given to Joanna Head of Santa Monica for the death of her husband, W. D. Head, president and general manager of the Head Drilling Company of Bakersfield, by the State Industrial Accident Commission March 3, 1915, was reversed today by the California Supreme Court. The court held Head was driving an automobile at a speed of from thirty to forty-five miles an hour when he was killed March 10, 1914, and that he was guilty of negligence.

# LANSINGS ENTERTAIN WILSON AND WIFE.

(BY A. P. NIGHT WIRE.) WASHINGTON, Jan. 18.—President and Mrs. Wilson were entertained at dinner tonight by the Secretary of State, Mr. Lansing. Those present included members of the Cabinet, Supreme Court justices and other officials.

Tomorrow night the President and his wife will attend a ball given in their honor by the South and Central American diplomatic corps.

# ALLIED TROOPS NOW IN CORINTH

London Hears They Intend to Advance on Athens.

Berlin Reports Entente has Sent an Ultimatum.

Hostility Toward Constantine is Rumored at Sofia.

(BY ATLANTIC CABLE AND A. P.) LONDON, Jan. 18.—A dispatch from Amsterdam to the Exchange Telegraph Company says that French and British troops have been landed at Corinth, Greece, forty-eight miles from Athens. The message says that according to information received at Amsterdam from Sofia the allied troops have been ordered to advance on Athens after a short inspection of the city.

"Among the wild rumors as to the intentions of the allies," the message continues, "is the statement that they intend to advance to Athens, whence King Constantine, his court and the government will retire, in conformity with the King's desire to maintain armed neutrality.

"In Sofia dispatches the question is asked whether the central powers will do in that event whether he will proclaim a republic and whether the army will side with him. These reports are said to have occasioned undisciplined alarm at the Bulgarian capital."

# ULTIMATUM IS REPORTED.

(BY WIRELESS AND A. P.) BERLIN, Jan. 18 (via Saville, N. Y.).—A note to the Greek government, amounting to an ultimatum, is said by the Overseas News Agency to have been received from France and Great Britain. According to Sofia dispatch to the news agency Greece is required to deliver their passports to the ministers of the central powers within forty-eight hours, failing which the Entente will take "necessary measures."

# RETURN TO THEIR SHIPS.

(BY ATLANTIC CABLE AND A. P.) BERLIN, Jan. 18 (via London).—The Cologne Gazette received information today to the effect that the British and French troops which landed at Phaleron near Athens have returned to their ships.

# HOSTILITY TO KING.

(BY ATLANTIC CABLE AND A. P.) AMSTERDAM, Jan. 18 (via London).—A dispatch to the Cologne Gazette from Sofia says that anti-Royalist demonstrations are expected at Athens.

"King Constantine retains the sympathy of only the high military officers," the message says, "and the attitude of the Holon. All three of the administration conservation measures providing for water power development, mineral leasing and larger stock-raising homesteads now await the action of the Senate.

"Persons in a position to judge don't agree as to the dependability of the higher officers, and in view of the central power, the phrase it will not be an easy matter to compel him to step out.

The King has told the ministers of the central power that they were to remain with him."

# After the War.

# WORLD ECONOMIC STRUGGLE NEXT.

# EUROPE LAYING PLANS FOR WIDER COMMERCE.

President of American Chamber of Commerce in Paris Tells France Only United States Can Supply Needs—Must Make Tariff Concessions.

(BY ATLANTIC CABLE AND A. P.) PARIS, Jan. 17, 8:01 p.m.—"The world now is to see an economic struggle far different in kind and extent from anything hitherto known," said M. P. Peixotto, president of the American Chamber of Commerce, at the twenty-second annual dinner of that organization, held here tonight.

"The European nations are laying plans for a more intensive economic struggle, which will begin in the near future. In France this subject is being studied with passionate interest," he said.

France will control her own commerce, Mr. Peixotto continued, but will need co-operation. One of France's greatest needs is transportation, not only of raw material, but also of machinery and manufactured goods.

Supply her needs. The United States alone can do so. To take advantage of the vast and hitherto only partially utilized source of supplies in the United States, France must permit American manufacturers to compete on terms of tariff equality with other nations.

Mr. Peixotto concluded by pointing out the benefits which would accrue from a closer economic understanding between the United States and France.

# ALL SHIPS MAY USE CANAL NEXT MONTH.

(BY A. P. NIGHT WIRE.) NEW YORK, Jan. 18.—The Panama Canal will be opened to the largest ships on February 15, according to Col. E. F. Glenn, U.S.A., who arrived here today on the steamship Columbia. The canal, which was closed to ships larger than a six-weeks' trip to the canal zone and said that when he left there was a channel twenty feet deep all the way to the locks.

# TROPICS SEVERE ON INTERNED GERMANS.

SAN FRANCISCO, Jan. 18.—The German cruisers Cormoran, interned at Guam, and Oehler, interned at Honolulu, have been ordered conveyed to this port, it was learned today, as the result of mental affliction of several of the crew.

The crew, caused by excessive heat. When Japanese warships pursued the Cormoran, the crew suffered from heat prostration. The exposed men radiated so much heat that the crew suffered from heat prostration. The United States ship supply was ordered to convey the vessels here. Physicians from Manila were ordered to accompany the crews.

# CHARGES ATTEMPTS TO ENLIST YANKEES.

(BY A. P. NIGHT WIRE.) WASHINGTON, Jan. 18.—Count Von Bernstorff, the German Ambassador, has called to the attention of the State Department charges published in Chicago that agents of the British and French governments were endeavoring to induce members of militia organizations in the United States to join the forces of the allies.

The State Department has turned the matter over to the Department of Justice for investigation.

# DVINSK JUDGES MAY NOW RETURN.

(BY ATLANTIC CABLE AND A. P.) PETROGRAD, Jan. 18 (via London).—The judicial and other administrative authorities at Dvinsk, who removed to Pskov, a city 150 miles to the northeast, when the German advance threatened Dvinsk, have been ordered to return to Dvinsk.

# GERMAN FORCES QUITTING LUTSK.

(BY ATLANTIC CABLE AND A. P.) KIEV (Russia), Jan. 18 (via Petrograd and London).—Lutsk, the important fortress in Volhynia, one of the triangle of fortifications there, is being evacuated by the Germans, according to information obtained from prisoners arriving here. The city and its environs, among which was the King's palace, was found covered with documents, among which was the King's patent as an honorary colonel of an Austro-Hungarian regiment.

# LOCATIONS OF TROOPS.

According to a dispatch from Austro-Hungarian press headquarters the submission of Montenegro were on line running to the west of Virbazar, north of Rieka, northeast of Ubl and north of Grahovo. Rieka is the second capital of Montenegro, where the King's winter palace is located, and whence a steam line runs along the Crnojevic River to Virbazar and Scutari. Virbazar is a small town, and the most important harbor on Scutari Lake. The Rieka and Virbazar basins are the most fertile regions in Montenegro. No report has yet been given out of the number of Montenegrins laying down their arms.

# THE NEGOTIATIONS.

Details of how the negotiations for the capitulation of the Montenegrin army were conducted were given out by the Overseas News Agency as follows: "On January 13 two Montenegrin ministers and one major of artillery arrived in the Austro-Hungarian capital, and expressed the desire to enter into negotiations for the capitulation of the army.

The secret service agents arrested Lieut. Arthur Wilhelm Heinrich Sachs, Walter Muller, August Mayer and Peter Wagner, all German reservists, who were about to sail on the same voyage of the Bergensfjord. Carl Ruedorff, an employee of the Norddeutscher Lloyd Steamship Company, another indicted, was arrested about the same time. He pleaded guilty and was sent to the Federal prison at Berlin, for four years. Lieut. Sachs and the others escaped with fines.

Von Wedell's wife, who disappeared when he escaped, is believed to have arrived safely in Germany via Rotterdam.

# VIEW AT COLOGNE.

(BY ATLANTIC CABLE AND A. P.) LONDON, Jan. 18.—"Do not exult prematurely," is the substance of an article in the Cologne Gazette concerning the capitulation of Montenegro, according to a synopsis from Reuters correspondent at Amsterdam. A quotation from the Gazette says: "Do not prematurely consider the collapse of the smallest at the end of the whole. One enemy lies prostrate, having been reduced to battle. So it shall continue until none of them can any longer fight and will ask for peace."

# HOUSE COMMITTEES ON MILITARY BILLS.

(BY A. P. NIGHT WIRE.) WASHINGTON, Jan. 18.—Committees of both houses of Congress continued today their work on the army and navy bills. Secretary Garrison gave before the Senate Military Committee his detailed explanation of the constitutional army plan.

# FRENCH AEROPLANES SHELL BULGARIANS.

(BY A. P. NIGHT WIRE.) LONDON, Jan. 18, 4:55 p.m.—Hundreds of Bulgarian soldiers were killed and a very large number wounded in a bombardment of Petritsa by a squadron of twenty-five French aeroplanes, having been sent by a dispatch to Athens and forwarded by the correspondent there of the Evening Standard.

The Petritsa mentioned by the correspondent is probably Petritsa, fifty-three miles northeast of Saloniki.

# TO VISIT PRESIDENT WILSON.

# MORAH'T'S VIEW ON MONTENEGRO

Berlin Expert Says: the Event Shows Allies' Weakness.

Capital is Found Well Kept; Much Booty Captured.

"Do not Exult Prematurely," Says "Cologne Gazette."

(BY WIRELESS AND A. P.) BERLIN, Jan. 18 (via Saville).—Commenting on the capitulation of Montenegro, Maj. Morah't, in the Berliner Tagblatt, states, according to the Overseas News Agency's synopsis of his article, that Germany is not overrating the event, as she has not hoped to crush all her adversaries at one blow.

"He does not consider," adds the synopsis, "that the capitulation of the remaining 30,000 to 40,000 Montenegrin soldiers is important in itself, but points to the fact that the Entente powers tacitly admit that they were unable to send sufficient troops to Montenegro to save their ally. This, he adds, is one more symptom of the growing disunion among the Entente nations regarding the object of the war."

# SETTLEMENT IN GOOD SHAPE.

Austro-Hungarian troops who entered Cetinje found the town well kept and clean and the population peaceful, friendly and suffering from privation. The Austro-Hungarian Agency announced today that the Austrian officers received offers of houses of residents as quarters, adds the news agency, which declares that the relations between the population and the troops generally were excellent.

# MORE KENNELS THAN CRADLES.

Not Depends on Count in the Homes of Palm Beach Citizens.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) PALM BEACH (Fla.), Jan. 18.—Russell G. Colt today bet Herman Oelrichs that there are more dogs in Palm Beach than there are babies, and set out to prove it. He had made considerable progress tonight as the following list proves. Mrs. Hamilton Cary, with her prize-winning English bull Newpor Nipper, John C. King, one Pomeranian; Herman Oelrichs, one white spitz; Mrs. Guernsey Munn, formerly Louise Wamamaker, one police dog, two water spaniels, one Russian wolfhound, one Pekinese, eight dogs mostly English pointers, English and Irish setters; Mrs. Willis R. Paine, one Pekinese; Mrs. William T. III, one Boston bull; Jack Saito, two Russian wolfhounds. It was reported tonight that Mr. Oelrichs had been able to discover but eight babies so far.

# ANS VON WEDELL PROBABLY DEAD.

INDICTED AS CONSPIRATOR IN NEW YORK CITY.

Advices from England Indicate Head of Supposed Plot to Seize American Passports and Vessels Which Struck Mine off the British Coast.

(BY A. P. NIGHT WIRE.) NEW YORK, Jan. 18.—Hans Adam von Wedell, indicted here on February 4, 1915, as head of an alleged conspiracy to furnish American passports to German reservists returning home by neutral ports, is believed to be dead, according to an announcement made by the Federal prosecuting authorities here today.

Advices received from England, it was said, indicate that Von Wedell, who was taken from the Scandinavian-American liner Bergensfjord while attempting to escape from this country, was on board the vessel when it was sunk by a British submarine. Von Wedell was taken from the liner by a British submarine and was taken to a British alien enemy detention camp struck a mine and was sunk.

When government secret service agents here attempted to round up the alleged passport conspirators last year Von Wedell, who had been living at a local club, could not be found. It was then learned that a man answering his description had sailed on the Bergensfjord under an assumed name.

# VESSEL IS DETAINED.

Messages sent by cable and wireless resulted in the vessel being detained by the British authorities while en route to Bergen. The passenger answering Von Wedell's description was seized and taken to Kirkwall, where it was learned later his identity as the fugitive was established. He was then ordered taken to an alien enemy detention camp.

The secret service agents arrested Lieut. Arthur Wilhelm Heinrich Sachs, Walter Muller, August Mayer and Peter Wagner, all German reservists, who were about to sail on the same voyage of the Bergensfjord. Carl Ruedorff, an employee of the Norddeutscher Lloyd Steamship Company, another indicted, was arrested about the same time. He pleaded guilty and was sent to the Federal prison at Berlin, for four years. Lieut. Sachs and the others escaped with fines.

Von Wedell's wife, who disappeared when he escaped, is believed to have arrived safely in Germany via Rotterdam.

# INDICTMENTS AGAINST VON WEDELL.

The indictments against Von Wedell and his alleged accomplices charged them with conspiring to furnish German reservists with fraudulent passports obtained from the State Department by dummies. It was disclosed that they had given to the State Department, a special agent of the Department of Justice, \$300 for expenses and disbursements in obtaining fraudulent passports for German reservists. Von Wedell, who was first a musical critic in a German newspaper here and later admitted to the bar, had become a naturalized American citizen in 1913, claimed to be a relative of the Governor-General of Alsace-Lorraine.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? Every day some grateful person writes to Dr. Pierce, telling him of his recovery from the old trouble. Now, is not that good news?

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? The reason for this is because you are not taking a well-known, safe, made by an expert, who has made his name as a specialist in these cases, and who has made his name as a specialist in these cases.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? This leaves all the work for the kidneys to do. They try to throw out the poisons of the body. Uric acid forms in larger amounts than the overworked kidneys can expel and that dangerous acid gets into the system.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? It causes headache, dizzy spells, rheumatism, sciatica or lumbago. You feel generally depressed and lack nerve and vim.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? The time to use Anuric. Now is the time to aid nature and prevent a more serious condition by using Dr. Pierce's Anuric Tablets.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? They are a certain uric acid solvent, mild and harmless, but a positive enemy to uric acid. They aid nature. Buffalo, N. Y., has sent his personal representative to Los Angeles. He has kidney trouble and the Sun Drug Co. eliminates uric acid and stops intestinal fermentation and auto-intoxication.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? He daily meets the public and ask your druggist for Dr. Pierce's Anuric Tablets and insist upon Anuric, assist you to a return of normal health.

Do You Know? Why Rheumatism and Kidney Diseases Are Worse at This Season of the Year? THE SUN DRUG CO. AND OTHER LEADING DRUGGISTS SELL ANURIC.

PUTT AND JEFF—Jeff must have thought the corporal meant physically superior. By BUD FISHER

**Mexico.** (Continued from First Page.) President Wilson and his cabinet, the late Gen. Huerta, Senator Myers, Democrat, interrupted the reading, saying he thought it improper for the Senate to criticize the President in the midst of a man characterized as a cutthroat and a murderer. "The Senator is entirely right," declared Chairman Stone of the Foreign Relations Committee. "I hope in the future we will not have more of this thing attempted or done." By viva voce vote further reading of the editorial was denied. Senator Lewis asked that his resolution directing the President to intervene in Mexico be referred to the Foreign Relations Committee. Senator Borah suggested that the resolution be acted upon at once. "The resolution might just as well be withdrawn for any good it will do American citizens being murdered in Mexico," he said. "This Senate ought to take a decisive step this morning, notifying the de facto government in Mexico that we are ready to use the armed forces of the United States to protect our people."

**BRING MILLIONS TO CALIFORNIA.** (BY A. P. NIGHT WIRE.) Citrus Crops Pay Huge Sums to the Producers. Powell Favors Co-operation Among Our Growers. How the Consumer's Dollar is Split in the State. (BY A. P. NIGHT WIRE.) MEMPHIS (Tenn.) Jan. 18.—At the meeting here today of the Fruit Growers' Association, G. H. Powell, general manager of the California Fruit Growers' Exchange, delivered an address, in which he said on the subject of "Revolving the Consumer's Dollar Backwards."

**PEBECO TOOTH PASTE** IF you will say "Pebeco" to your druggist now, you won't need to say "Ouch!" to your dentist later.

**PEBECO TOOTH PASTE** Shop Safely. THIS bank has a SPECIAL Checking-Savings account that is ideal for Shopping. It pays you 3% besides, and you get the interest each month. You always have the change exactly to pay the bill—you also have the receipt—you never pay twice, and no one can rob you. The Bank is open all NIGHT and DAY. Ask for a SPECIAL I. \$300 will open this account.

**PEBECO TOOTH PASTE** Window 28 is a special window for ladies. Wellman's Bank SIXTH AND MAIN.

**PEBECO TOOTH PASTE** Furs. A low price must be linked with quality when you buy furs. Consider quality first and you will be safe.

**PEBECO TOOTH PASTE** Obrikat furs are invariably best. They always mean an extra measure of value. Prices are lowest because here you buy direct from manufacturing and importing furriers. Obrikat's is the one store where you can expect real value at a low price.

**PEBECO TOOTH PASTE** F. Obrikat Fur Company Leading Furriers Third and Hill

**PEBECO TOOTH PASTE** CASTORIA For Infants and Children. The Kind You Have Always Bought.

**PEBECO TOOTH PASTE** WHY HAIR FALLS OUT. Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Dandruff at any drug store, pour a little in your hand and rub. After a few applications all dandruff disappears and the hair stops coming out.

**PEBECO TOOTH PASTE** FREE MEDICAL EXAMINATION. LEARN IF AND HOW YOU CAN BE CURED OR BENEFITED. Dr. Charles H. Smith, D.D.S., is a specialist in all cases of dental disease. He is a member of the American Dental Association and the California Dental Association. His office is at 121 Third Street, Los Angeles, between 2nd and 3rd Streets, 1st Floor, 12-13.

**PEBECO TOOTH PASTE** MEXICAN BULLETS STRIKE U.S. IMMIGRATION STATION. (BY A. P. NIGHT WIRE.) EL PASO (Tex.) Jan. 18.—Two bullets fired from the Mexican side of the Rio Grande struck the United States Immigration station at the Santa Fe Railroad bridge here tonight. No one was reported injured. Gen. Gavira, commandant at Juarez, said that any shots had been fired from the town. United States inspectors declare to have heard the shots and witnessed the bullets strike the station. The belief also was expressed that the shots were fired by two Mexicans who escaped from United States inspectors after being arrested late today for trying to smuggle in rags, against an embargo established today by the United States health service.

**PEBECO TOOTH PASTE** NO TYPHUS IN JUAREZ, SAYS AMERICAN DOCTOR. (BY A. P. NIGHT WIRE.) EL PASO (Tex.) Jan. 18.—Dr. John W. Tappan, attached to the United States Immigration station at this point, reported today that, contrary to reports, no typhus was to be found at hospitals or elsewhere in Juarez. In El Paso there has been no other case than that of the Mexican who died here last Saturday. Ten tons of unclean rags have been burned by United States officials and three Mexicans were arrested late today while trying to smuggle more into the city to sell to junk dealers. Mexican authorities announced their willingness to co-operate with American officials to prevent the entrance of typhus fever into the United States. Extra immigration guards have been placed on duty at the international bridge to scrutinize all applicants for entry. DENIES REPORT OBREGON A PRISONER. (BY A. P. NIGHT WIRE.) NUEVO LAREDO (Mex.) Jan. 18.—Carranza officials here tonight denied reports from El Paso today that Gen. Alvaro Obregon was virtually a prisoner at Queretaro. On the contrary, they said, Obregon has been "signally honored" and has once more reiterated his loyalty to Carranza, and that there is no friction between the First Chief and any of his generals. Gen. Carranza returned to Queretaro today from Celala. He was accompanied by Obregon and John R. Silliman, United States State Department representative. ON ZAPATA'S TRAIL. (BY A. P. NIGHT WIRE.) GALVESTON (Tex.) Jan. 18.—Twenty thousand of Gen. Obregon's veteran Yaqui troops have begun a campaign against the forces of Gen. Zapata in the States of Morelos and Oaxaca, according to a telegram reaching the Mexican Consulate here today. WHOLE LODGE ON TRIAL. Cincinnati Aerie of Eagles Accused of Misconduct. (BY A. P. NIGHT WIRE.) CINCINNATI (O.) Jan. 18.—With the arrival here today of the trial of the Cincinnati Aerie of Eagles, numbering more than 2,000, will be placed on trial tonight, charged collectively with "conduct unbecoming Eagles." The trial officers include former Congressman Theodore A. Bell of California. The trials are the outgrowth of differences that originated in the local lodge some time ago, relative to the expenditures of money on a trip to one of the annual reunions of the Eagles.

then invited the salesmen and customers to get in touch with their representatives.

It was a hilarious and happy banquet and the wires buzzed with conversation. The salesmen were rewarded and new ones formed.

This is the first time the transcontinental telephone has been used for such a purpose. The members of a big organization in touch at the same moment. When the circuit was open the dozen salesmen in Los Angeles, San Francisco, San Diego, large cities, were able to hear the speeches made by the men at the Chicago banquet.

**MORTGAGE GUARANTEE.**

**Annual Meeting of Stockholders.**

**Election of Directors.**

The annual meeting of the stockholders of the Mortgage Guarantee Company was held yesterday at the offices of the corporation, No. 431 South Spring street, and the following directors were elected: James H. Adams, Morgan Adams, Harry Lee Martin, Donald O'Melveny, Austin O. Martin, William H. Allen, Jr., O. C. Brant, William H. Allen, Jr., O. C. Brant, W. H. Holliday, William H. Vedder, H. J. Whitley, J. A. Graves, Roddard, H. Newbrough, W. W. Drake, W. C. Lewis, L. L. Doherty, William Lacy, F. W. Braun, F. C. Cruckshank, Henry W. O'Melveny, C. G. Leitch, C. H. Clark, C. E. Allen, W. P. Mail, E. P. Clark, C. B. Jones, 234 Ward Strassburg.

James H. Adams was elected president; Morgan Adams, vice-president; Harry Lee Martin, vice-president; Donald O'Melveny, secretary and treasurer, and George S. Fleishar assistant secretary.

**BIOLOGISTS TO MEET.**

**Will Discuss Science and Look at the Brea Bones.**

Scientists in this part of the country are keenly interested in the forthcoming gathering of biologists at a special meeting of the biological section of the Southern California Academic and Scientific Association, which will be held in the zoological lecture-room of the University of Southern California on the morning of February 5. Representatives of the University of California, U.S.C., the State Normal School and other institutions will be present.

Frank S. Daggett, director of the section of the meeting, and Art at Exposition Park, will report on the present status of the work on material excavated at La Brea fossil beds, and on the collection of bones excavated from the beds. Other speakers will be Prof. Albert B. Drey of U.S.C.; Prof. W. H. Dall of the University of California; Calvin O. Eaterly, Occidental; Prof. Samuel Rittenhouse, U.S.C.; and Prof. L. H. Miller of the State Normal School. The sessions will range from a fascinating discussion of "The Life History of 'Zygonopsis' to 'The Habits of the Urolophus Halleri'."

The sessions will begin at 10 o'clock and at the University of California at Exposition Park. The public

A dark, vertical, textured strip, possibly a book binding or a piece of fabric, showing a fine, repeating pattern. The texture is dense and fibrous, with a slight sheen. The color is a deep, dark grey or black. The strip is oriented vertically and occupies the right side of the image.

## In Nick of Time, GAS FAMINE AVERTED.

Quick Action all that Saves City from Grave Situation When Pipe Lines from Midway and Fullerton Fields are Washed Out.

One of the most threatening conditions resulting from the storm occurred early yesterday morning when the city was entirely cut off from its natural gas supply. Both the Fullerton line and the Midway line broke. This was, however, anticipated by the Los Angeles Gas and Electric Corporation, and within thirty-five minutes after the breaks artificial gas was flowing in the lines to full capacity.

## BETTER STAY HOME.

Stalled Automobiles Makes Frank Comment on Henry Ford's Mission.

The storm that spread damage and desolation in many districts also had its humorous side. Yesterday morning a gentleman who had been driving a small runabout was stalled at Seventh and Alvarado streets.

## FLOOD BEARS GOOD FRUIT.

Hills at Mouth of North Broadway Tunnel to be Razed and Improved.

An important improvement to North Broadway at the opening of the tunnel will result from the recent storm. The waters cut down the hill on the east side of Broadway at the south entrance to such an alarming extent that the owners, Charles M. and George W. Silmon, announced that the hill will be cut to street level, the houses wrecked and the property improved.

300 acres of orange trees damaged at Covina.

Some striking views of the flood damage in outlying districts, and of an experiment which may point the way to future safety. The Haines Canyon picture was made at the height of the storm by Engineer F. H. Olmsted and shows how his retarding dams stay the descending water. The tracks at the right of the center picture are those of the Pacific Electric across Cerritos slough. Two hundred feet of the levee went out, flooding the district below.

## CHECK DAMS IN CANYONS CUT FLOODS TO NOTHING.

Great Arroyo Near Sunland, Source of Enormous Damage in Past, is Made Harmless by Series of Little Retarding Walls, Quickly and Cheaply Built—Much Water is Stored for Later Irrigation as Well.

HAVING completed a thorough investigation of the effect on the recent flood of the 400 flood-retarding dams constructed in Haines Canyon a year ago under his personal supervision, F. H. Olmsted, former member of the engineering corps of the county board of flood control, returned to this city yesterday morning elated with the results under drastic flood-test. Not only did the small dams scattered through the canyon fulfill all expectations, and change the usual torrential stream of sixty-five cubic feet per second into an inoffensive one.

control on the ground of economy, expressed opinion. "If we can depend on the efficiency of the check dams as demonstrated in Haines Canyon, it is not unreasonable to say that if a full complement of such dams in the mountains should be installed, including spreading and soil covering, such a flood as we have been having during the past three days would be impossible," he said.

"The \$1,000,000 of the proposed \$3,500,000 bond issue for flood control, designated for this work will mean a start in the right direction," County Surveyor J. E. Rockhold, who assisted in the installation of the dams, is similarly optimistic.

bettement of the existing system, at enlargement of mains and an extension of distribution, and in connection it will get the installation of new lines, and a water system that will be equal to all other parts of the city. It will have constantly at hand an inexhaustible supply of the sparkling aqueduct water.

Hollywood will now be in a position not only to expand within the limits of its already settled area, but to reach out and add to its picturesque beauty by dotting its unscathed higher levels with beautiful homes. Al-

STEAMER IS IMBEDDED IN SILT AT THE HARBOR.

Damage from silt at the Los Angeles Harbor will likely amount to the damage done by the flood of two years ago, according to reports received by the Harbor Commission late yesterday. The Consolidated Lumber Company's channel which was silted up two years ago and on which the steamer Prentiss is imbedded is again filled in and the steamer is firmly imbedded in silt.

Harbor Traffic Manager Matson sent a letter to Congressman Stephens last night, informing him of the situation and urging the necessity for an appropriation to build a diversion dam. The flood is bringing tremendous quantities of silt into the harbor, Mr. Matson says. "The silt is coming in as fast as the water is coming in, and it is doing more damage than the water itself," he says. "The silt is coming in from the river, and it is doing more damage than the water itself."

"TIMES" ONLY PAPER TO REACH MAROONED CITIES.

The Los Angeles Times was the only Los Angeles newspaper to reach San Bernardino, Riverside, Redlands, Santa Ana, Orange, Anaheim and other cities east of the San Gabriel river yesterday. The fact that the paper was delivered to these cities is a great achievement, considering the fact that the river is so high that it is impossible for any other newspaper to reach them. The Times is the only paper that has a special delivery system for these cities, and it is the only paper that is delivered to them every day.

PACIFIC ELECTRIC IS HARD HIT BY FLOODS.

Through the Pacific Electric Company put every available man to work early yesterday morning to repair the damage done by the flood. The company is also repairing the damage done by the flood to the Pacific Electric bridge over the river, which is about two miles long. The company is also repairing the damage done by the flood to the Pacific Electric bridge over the river, which is about two miles long.

SAN BERNARDINO COUNTY LOSS ABOUT A MILLION.

SAN BERNARDINO, Jan. 18.—(By Direct Wire—Exclusive Dispatch.)—The San Bernardino County loss from the flood is estimated at about a million dollars. The city is cut off from the rest of the world, and the loss is estimated at about a million dollars. The city is cut off from the rest of the world, and the loss is estimated at about a million dollars.

UNKNOWN MAN IN DANGER.

Sheriff and Deputies Toll to Save Rancher Marooned in Flooded House.

Sheriff Cline, with half a dozen deputies, spent many anxious hours last evening in an effort to rescue a rancher who has been marooned in a half-submerged house opposite Bell station for more than forty-eight hours. The Sheriff transported a boat to the place and made a dozen attempts to force a crossing, but the frail boat was thrown back upon the bank at every attempt and when darkness came the lone rancher could be seen seated in the upper window of his home. A number of the deputies remained on duty throughout the night, making efforts to breast the current or, in case the house leaves its foundation, to follow it down stream and save the man's life. The occupant of the flooded house is unknown.

Storm Damage.

Storm Damage. (Continued from First Page.)

were washed down on the parking and deep gullies were cut between the lines of citrus trees. The flood, coming just after the heavy rains, will make this the most destructive storm in the history of Pomona. It was still raining heavily, although at intervals, last night.

J. S. Holabird, street superintendent of Claremont, last night sent an appeal for assistance to the citizens of Pomona and declared that unless 100 teams and 200 men volunteer to work today in diverting the waters of San Antonio Wash from their new channel back to the original channel, the loss to property will be overwhelming. It was raining hard at Claremont last night and fears were expressed that the gap that sent a flood of water down into Pomona last night will be much larger today. Unless the water is diverted it is feared orchards and ranch lands will be ruined beyond help by tonight.

In and near Los Angeles the flood waters are subsiding so that property owners, corporations and city and county officials can take stock of the actual damage and start repairs. Many bridges were washed from their piers or their approaches were destroyed. A loss of \$300,000 and deeply imbedding at least one steamer. Highways were washed out in every direction and the loss to the roads of the railroads was large. Every river in the south went over the banks and ranch and orchard lands are still under water in the flood waters and but little mail service and for a time a milk and fresh vegetable famine was threatened. At least four persons lost their lives in the flood water in Southern California yesterday.

At noon yesterday when the superficial storm water which half covered Pomona for forty-eight hours, began to subside, a him in the hills north of the Base Line road near Claremont burst, releasing a terrific volume of water into the wash north and east of Claremont. Almost simultaneously the waters of the wash leaped their banks above Claremont and went racing into their former course. It was the thing which Claremont had feared for years.

At the King dairy north of the College City, cows were swimming in a few minutes. The Trustees of Claremont telephoned to Pomona and appealed to the Mayor for assistance in controlling the flood. Several dozen men left this city for that place at once. Hardly had they started, however, when the flood struck Pomona through the Cap Mitchell grove and rushed across East Holt avenue. In five minutes the flood ran half a mile wide and two feet deep, carrying everything loose in its path. It swept down across the famous Nesbit grove and struck the Southern Pacific tracks at the Pomona Valley Ice Company plant half a mile east of San Antonio avenue. Then it spread out into a huge lake, and followed the railroad tracks west to San Antonio avenue, where it turned south and covering two blocks wide, rushed toward Washington interurban school.

Principal A. A. Kibbey made a rush for the building. When he arrived there was half a foot of water on the grounds. In half an hour the water was slashing on the third step of the

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told me I should not do anything for me I would not last long and told him to get my medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ill, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence this treatment without delay.

approach, Mr. Kibbey and the janitor were telephoning wildly around and begging somebody to come to their rescue. They were removed from the building on horseback an hour later. The water was belly-deep on the horse. Having a natural fall in that direction, the flood continued down San Antonio avenue throughout the night. The depth of the water was high above a man's knees.

CITRUS DAMAGE HEAVY.

The indications are that the rush of water will uproot the trees in at least 100 acres of valuable bearing orange groves between the College City and Pomona. The groves worst hit are those of Messrs. Overholser, Mitchell and Nesbit. Mr. Nesbit estimates that the torrent will damage to the extent of at least 10 per cent. everything in its path. Great damage has been and will be done to railroad properties. Several Salt Lake trains have been tied up in the yards since Monday morning. The Pacific Electric has been hard hit throughout the valley, but is putting forth a valiant effort to clean away the debris and resume business.

At Claremont the flood raced down a strip which used to be its bed, but from which it was turned years ago. It was racing across what is known as Blanchard Park, and between the Greek theater and Smiley Hall. Reaching within sixty feet of Smiley Hall, it cut a deep gulch across the athletic field and flowed in between the gymnasium and the training quarters. High embankments have been melted away by the waters and basements are full. Should the storm continue for twenty-four hours buildings valued at \$200,000 dollars will be wrecked and ruined on the college grounds.

The flood found its way from the college grounds to the Pacific Electric tracks, from which place it

BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Cleanses the little liver and bowels and they get well quick.

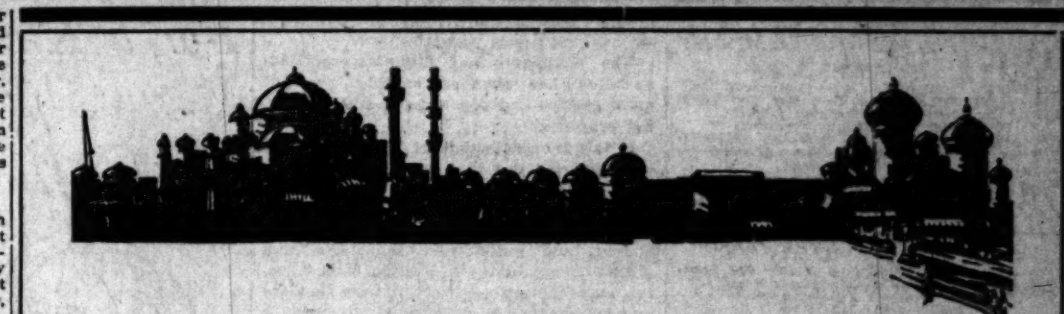

When your child suffers from a cold don't wait, give the little stomach, liver and bowels a gentle, thorough cleansing at once. When croup, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of California Syrup of Figs, and in a few hours all the clogged-up, congested waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs" to evacuate the bowels no difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "Fruit Laxative." Millions of mothers keep it hand because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and grown-ups plainly on the bottle. Beware of counterfeiters sold here and there. Get the genuine, made by "California Fig Syrup Company."

Note: The Package—it's flexible and will curve to fit your pocket.

Today at 11 A. M., 2:30 P. M. and 8 P. M. in the Ball Room of the

Alexandria Hotel the remarkable Persian

Rug Exhibit of the P. C. I. Exposition

will be sold at Public Auction by order of the Concessionaire and Exhibitor, Mr. Levon S. Topjian

This is the collection of Persian Rugs which aroused such widespread enthusiasm at the P.C.I. Exposition where collectors and connoisseurs were of the opinion that no collection within the memory of the present generation had approached this one for the rare and distinctive quality of each and every one of the hundreds of Rugs shown.

NOT THE GOAL.

The flesh pots of Egypt are sometimes after off. One goes far to reach them and then has much further to go because he did. The point is that the fleshpots of Egypt are not a destination but only a way station. You stop over night to refresh yourself and then proceed on your journey. All aboard for somewhere!

## ALL ONE WAY.

America has peculiar notions. For instance, it cannot send soldiers into Mexico to protect the lives of its own people, but it can send American surgeons and physicians to protect the lives of Mexicans. It is to be hoped that this unselfishness on the part of Mr. Wilson will receive its reward in heaven, since there is not a chance of its being appreciated on earth by either party to this contract.

## MAKING A GO.

When a man is up against it he somehow, in some way, always manages to wriggle out. Afterwards he is worth more to himself and to the community for the experience. Some men never amount to anything until they are compelled by circumstances outside of themselves. It is too bad that fate does not take more of us by the scruff of the neck or the seat of the trousers and hurl us into prodigious predicaments. Come on in—the wriggling's fine.

## FROM BAD TO WORSE.

Carranza will try to abolish the use of pulque in Mexico and will beg the people to drink light wines and beer instead. Now it is perfectly proper to encourage the use of these mild drinks as against the fiery draughts of the vile liquors; but somehow the system nearly always works backward. We never heard of a Mexican turning from mescal and tequila to Rhine wine, but we have often heard of Mexicans progressing in the other direction. It is easier to go from light wines to alcohol than it is to go the other way.

## WISH ONLY TO ESCAPE.

When a bad man or an adventuresome is arrested in modern fiction or drama and even in life they raise the same cry to the effect that they never had a chance. They always say that if they can get by this one time they will make the right beginning. They mean that they are very sorry to be caught, that they now realize the sin of doing wrong when anybody is looking at them, and that if they could wriggle out this one time with the goods on them they would proceed in the error of their ways with far greater caution in the future.

## WISDOM FROM TAFT.

Ex-President Taft condensed the situation into a few sentences when he said: "The Republican party will be maintained as a Republican party;" "The Republican party is not dependent on the Progressive leaders for success;" "The most radical mistake the Republican party can make is to sacrifice its principles, either in its platform or in the character of its nominees, for the purpose of securing Progressive support;" "If the Republican party will nominate a regular Republican, it can win; and if it cannot win with a regular Republican it ought not to win in any event."

## LOGWOOD EMBARGO.

The reason assigned by the British government for placing an embargo on the exportation of logwood from Jamaica and Honduras, except to British ports, was that American manufacturers of logwood dye brought up the logwood in the British colonies, brought it to the United States, manufactured the dye and raised the prices of them to Canadians and to English manufacturers.

The Canadians and the English factory lords, instead of outbidding the Americans for the logwood, appealed to their government, which promptly came to their relief with an embargo.

Peculiar and rather small business for a great government to engage in, wasn't it?

## OUTLAWING THE SANTA ISABEL MURDERERS.

It is reported that Carranza has issued a decree of outlawry against all those who were engaged in the Santa Isabel massacre. Outlawry was an ancient proceeding putting a man out of the protection of the law, so that he became incapable of bringing an action for redress of injuries and forfeited all his goods and chattels to the king; it was a process which might be resorted to against an absconding defendant in a civil or criminal proceeding.

An outlawry for treason or felony operated as a conviction and attainer and a person outlawed might be killed by anyone who should meet him. "An outlaw is one who is put out of the law; that is, deprived of its benefits and protection. In earlier times he was called a 'friendless man'—one who could not by law have a friend. An outlaw was said to be 'capit bene luptum,' by which it was meant that anyone might knock him on the head, as a wolf. He forfeited everything he had, whether it was in right or possession." (37 Me. 391.)

If Carranza would go a little farther and declare Villa and all his officers and troops outlaws and extend the privilege of killing them on sight to Americans as well as Mexicans it would not take long for Texans and Arizonans to organize a force that would, in co-operation with a Carranza force, clean Chihuahua and Sonora of bandits, and furnish every Yaqui Indian with a short-order funeral.

## THE MERCHANTS AND MANUFACTURERS ASSOCIATION.

The Merchants and Manufacturers Association has rounded another year of great service and of watchful—not waiting, but progress.

It is an organization of high value and effectiveness; one that has faithfully, carefully, intelligently and with wisdom aided, protected and advanced the real interests of Los Angeles; ever on the alert to encourage and assist new industries, and militantly aggressive in beating back harmful encroachments—whether from lawless unions, dishonest merchants, fly-by-night speculators or long-haired experimenters—on the freedom and good standing of the city.

At the annual dinner Monday night, President Bush reviewed the work of the past year and showed how the association with no flourish of publicity had continued its campaign to protect merchants and the public from misleading and dishonest business methods. Many abuses were rectified without recourse to criminal prosecution, but that where stringent methods were found necessary a verdict of guilty was obtained in every instance.

His report was decidedly, and with good reason, optimistic. "We have the assurance," he said, "of many of the leading merchants that the Christmas trade of 1915 surpassed in volume, as well as in financial transactions, that of the last two years. It is my earnest belief, founded upon a careful review, that 1916 promises to be one of the most prosperous years that Los Angeles has known for a long time, that business conditions will resume their normal volume and that henceforth we will be found marching under the flag of prosperity, development and happiness."

The interest of the association is by no means restricted to the business of merchants and manufacturers; but with vision that keeps the whole horizon, it has been particularly active in supporting every legitimate industry that has entered Southern California.

Special attention has been given to viticulture, and in his address at the association dinner George P. Adams laid stressed opposition to the laws enacted both in Washington and Sacramento that have worked harm to fruit growers and farmers. Referring to President Wilson's tariff policy, Mr. Adams said: "When he reduced the tariff on our oranges and lemons, our olives and our sugar, he killed the goose that lays the golden eggs for Southern California. When he took off the tariff on meat the Mexican government promptly laid a duty and the money that should have been ours went into the coffers of the country that has permitted the killing of American people."

Another instance of the readiness of the association to throw the weight of its support to the advantage of any legitimate business is shown in its warm attitude toward the moving-picture industry which has developed more rapidly in Los Angeles than in perhaps all the other places of the United States taken together. D. W. Griffith staged at the dinner that the business of producing moving pictures in Los Angeles now represented an annual expenditure of close to \$20,000,000, with the prospect of further rapid development.

May the M. & M. long continue its good work! With vigilance and energy it has over addressed itself to obtaining and maintaining the best business conditions in Southern California. As an organization of high ethics and strong courage, unified in its purpose, generous in its support, it has done much to make Los Angeles the great and prosperous city that it is and will be so long as the spirit exemplified in the M. & M. Association prevails throughout Southern California.

## A SINGULAR REQUEST.

The Austro-Hungarian government requested of the British government that special measures be taken by it to insure the safety of certain Austro-Hungarian subjects who are being repatriated from India on the steamship Golconda—a British merchant vessel.

To this Sir Edward Grey replied expressing his astonishment that the Austro-Hungarian government, one of the authors of the danger from submarine attacks, should have thought it seemly to make such a request.

Accompanying the request was a statement by the Austro-Hungarian government that it would hold the British government responsible for the lives and well-being of these passengers—a majority of whom are better-class people.

To this Sir Edward Grey replied that "better-class people" were no more entitled to protection from submarine attacks than other noncombatants, and that the only danger which threatens any passengers on the Golconda is one for which the Austro-Hungarian and German governments alone are responsible. Says Sir Edward: "It is they only who carry on the novel and inhuman form of warfare which disregards all hitherto accepted principles of international law and necessarily endangers the lives of noncombatants. By asking for special precautions to protect one of their own subjects on board a British merchant vessel, the Austro-Hungarian government recognized what is the inevitable consequence of their submarine policy and admitted that the outrage whereby the Lusitania, the Persia and numbers of other ships have been sunk without warning were not the result of casual brutality of the officers of the enemy submarine, but part of a settled and premeditated policy of the governments they serve."

Sir Edward concludes with the statement that His Majesty's government would not take any precautions on behalf of Austro-Hungarian subjects which they do not take in behalf of their own.

It is difficult to comprehend how the British government could safeguard Austro-Hungarian passengers on a British vessel from the results of an attack on that vessel made by an Austro-Hungarian submarine. Would it be expected that the captain of the Golconda on being notified that his ship was to be torpedoed should first of all provide for the safety of the Austro-Hungarian "better-class" passengers, by sending them off in boats, and if there were not boats enough left to carry other passengers and the crew then to let the latter drown or be blown up?

The request of the Austro-Hungarian government was most extraordinary.

## For a Knock-Out Next November.

## LOCAL STREET-CAR SERVICE.

Probably the street-car service of any large city can never be brought to a degree of perfection that will satisfy the demands of the over-exacting citizen. Most people, however, have nothing but commendation for the regularity and convenience of this indispensable public utility in our own city and section. The transportation value of a nickel under the local transfer system is a marvel.

But the problem of the "rush hours," like the poor, is with us always. Those who contend that a street-car company ought to be compelled by law to provide seats for every passenger under all circumstances are asking that street-car service be carried on at a loss to the stockholders; the eventual result being the use of private automobiles, irresponsible jitneys, or shoe leather and leg muscle as the only means for getting over the ground.

Our modern industrial system causes the inevitable inconvenience of the morning and evening rush hours. During the rest of the day the street-car companies to maintain their schedules run many cars only partly filled and often nearly empty at a price that does not pay the expense of running them. The hours when the great part of their patrons are either going to or returning from their daily work are the hours that enable the companies to carry passengers at a cost that could not be reached in any other way.

But if every passenger during the rush hours had to be provided with a seat, the companies would have to double their amount of rolling stock and the number of their employees—and the extra help and the extra cars would be a dead loss to them for ten out of every sixteen working hours.

There is doubtless a great deal of discomfort and over-packing of street cars at certain times on some particular routes, but taking all in all, it would be hard to devise any street-car service as cheap and efficient as that to be found in Los Angeles and its suburbs. Those who are over-full of grievances and complaints should try a season of London motor buses. Even an occasional strap hanging to them would come then as a blessed relief.

## SENATORS CRITICIZE WILSON'S MEXICAN POLICY.

The last official communication that President Wilson condescended to send to Congress with respect to our relations with Mexico was on the 20th of April last, when he informed that body that "there was no government in Mexico."

"It has been the universal custom," said Senator Fall of New Mexico, "for a President, on recognizing a new government, to give Congress full information concerning it at the first opportunity. The present occupant of the White House is the first American President who has dared so to ignore this co-ordinate branch of the government."

Nobody knows, or if they do know they won't tell, whether President Wilson, prior to recognizing Carranza, required assurance of recompense for outrages and damages committed against Americans and their property.

The "recognition" of Carranza appears to have been one by which the United States bound itself hand and foot to a new government—giving everything and receiving nothing—a Flora McFlimsy promise on the part of Carranza.

Another curious fact is that Carranza does not pretend to be President pro tem. On the demand of his generals he signed an agreement not to be President.

"Our State Department," says Senator Fall, "has recognized Carranza—as I learn from the newspapers and not from the department—as 'first chief of the de facto government,' and we have the remarkable situation of the United States government sending an ambassador to a 'first chief.'"

Sensor Fall asked if the President's words in last year's message, promising to hold to strict account those responsible for damages to Americans, were for home consumption.

Sensor Lodge of Massachusetts is altogether disatisfied, if not utterly disgusted, with the attitude of President Wilson with respect to Mexican affairs. In a recent interview with a correspondent of a Boston Journal Senator Lodge said:

"The President has recognized somebody in Mexico. We learn from the newspapers that it is Carranza. 'The President has the right to recognize a government in Mexico, and to send to the name of an ambassador (and it is an excellent choice), but it does not seem unreasonable, now that we are asked to confirm the nomination, that we should ask for this information.'

"Where is our Ambassador going? To Mexico City? or to follow Carranza's flitting government from place to place? One evidence of government authority is possession of the capital."

"I should like to know the grounds for recognizing Carranza; the assurance of religious liberty of Mexico; the assurance of payment of claims."

"By our course in Mexico, intervening to the extent we have, we have made ourselves possibly responsible for enormous claims of other governments against Mexico."

## RIPPLING RHYMES.

## THE WINTER DAY.

The leaden clouds were blown away, the sun got busy overhead; it was a perfect winter day, without a bluish, critics said. The judges who had passed on days, at many a State and county fair, admitted that we couldn't raise a finer sample, anywhere. I walked nine miles, just to inhale the crisp, keen air that braced like wine; it seemed to render sound and hale these ancient, spavined limbs of mine. And nearly every man I met was grumbling at that perfect day. "We do not want spring weather yet—it's bad for us," I heard men say. "Such weather will relax the pores, and leave us open to disease, and when again the tempest roars, we'll have rheumatics in the knees. These balmy days are simply snares, designed to kill off human wrecks, and when again the blizzard tears, we'll have lungbagg in our necks." I get discouraged, oftenwheles, there are so many jays on earth, who simply won't indulge in smiles, but dish up brine, a jibber's worth. The sun may shine, and breezes sweet as Eden's spires may blow, and still they'll kick with all their feet, and make a specialty of woe.

WALT MASON.

## CHILE AND THE UNITED STATES

(CONTRIBUTED TO THE TIMES)  
BY WILFRED SCHOFF.

Secretary, the Commercial Museum, Philadelphia; Consul for Peru, Bolivia and Costa Rica.

A FLEET of ships, laden with Chilean iron ore, for the Bethlehem Steel Company, was due to pass from the West to the East Coast when the latest big slide occurred. The prospect of a delay lasting for days lengthened into weeks, into months; and the shrewd Schwab brain did some careful figuring. Then the order went to several of the waiting ships:

"Jettison cargoes and return to Valparaiso."

Thousands of tons of eagerly awaited ore went overboard into the sea rather than lose the money and time involved in the long voyage around the Horn.

It was an incident illustrative of the increasing importance of the canal as a main artery of trade; but it is far more important, just now, as evidence of a phase which is rapidly developing in our trade relations with South America.

The canal brings the whole West Coast into touch with our eastern seaboard and gives our metal industries a great advantage over European competitors in a nearer freight haul from the South American mines to the foundries and shops of the United States. Ten years ago, the existence of Chilean iron was known; but it had very limited value because its use was confined to a few foundries and machine shops in Chile, operated by British and German capital. Now that American capital has gone into the mountains, has thoroughly prospected the ore fields, and has opened up great modern enterprises to take out the ore, the stimulus is felt not only in Chile, but directly in the United States. We get from Chile a fine grade of ore which enables us to make steels better suited to certain special needs, while the Chileans gain a stream of capital, flowing into their country, providing employment and good wages for large numbers of their people, energizing wholesale and retail trade, adding an important item to Chile's economic strength.

Chile's interests hitherto have been mainly agricultural, with the export of nitrate of soda as the principal mineral resource, as well as the principal item in the national revenues by reason of the export tax levied upon it. Now, however, not only will Chile proceed upon a basis of much more substantial prosperity, but the United States will profit by the closer relations created through the investment of capital in Chilean resources and by the increased interest in us and the better feeling towards us on the part of the Chileans. All this makes for better and broader relations in our export trade with Chile.

In all the West Coast countries, as in Chile, the question of a large increase in trade is dependent on the investment of capital for the development of natural resources. Without capital, there can be no rapid increase in the buying capacity of these countries.

With proximity, capital and a vast market, the advantage of reciprocal trade relations is enormously in favor of North America, as against Europe, not in Chile alone, but along the whole West Coast; and not merely in the future, but in the immediate present. The old, and the best, basis of trade relations—scratch my back and I'll scratch yours—is already existent, on a scale not suspected by those who are outside of the special interests concerned.

What has been done with Chilean iron ore was done fifteen years ago with Peruvian copper. Peru, which made the fortune of the Spanish crown with its gold and silver, now bids fair to make the fortune of American trade with its copper. James B. Haggins, the McCune syndicate, the Grace Company of New York have invested many millions in Peruvian copper development. And our sales to Peru are steadily growing, just as they are growing in Chile and more rapidly than we could possibly have expected had we depended only on the quality of the goods offered.

In Bolivia, American capital is developing the tin mines and the gold mines; but our investments are not so large in proportion to those of other countries, and our so fast as it has with Chile. The plan for railroad construction laid down by the Bolivian government, which has already connected La Paz with the sea and also with important interior points, especially to the south, will open up the whole country to trade as never before. Any investment of American capital—in public service, enterprises such as city lighting plants, trolley lines and power stations—is certain of excellent returns in interest and affords the strongest bid we can make for the furtherance of intimate trade relations.

Through the extension of the field of American banking and with conservative estimates of the value of our services, we can be marketed in the ordinary banking ways; this in its turn stimulates outgoing trade in directions felt not only by the investors in these securities, but also by manufacturing and commercial houses all over the United States.

We have now, through the extension of our banking facilities, a much more advantageous position for the extension of our trade throughout the South American republics; and we have already begun our work of extension. We began before the outbreak of the European war. The growth our trade has shown has been much more to normal American enterprises than to any factitious impulse occasioned by the war. We are on a very healthy trade basis with South America, as it is.

## Before an Audience.

Anybody who has ever suffered from stage fright—and who of us has not?—must smile aloud over the following veracious tale from the Western Christian Advocate:

The chairman of the committee was addressing a meeting at a teachers' institute: "My friends, the schoolwork is the bulwark of civilization. I mean—ah— He began to feel frightened.

"The bulwark is the schoolwork of civilization."

A smile could be felt.

"The workhouse is the bulwark of civilization."

"The schoolbul is the housework."

An audible snigger spread over the audience.

"The schoolbul."

He was getting wild. So were his hearers. He mopped his perspiration, gritted his teeth, and made a fresh start.

"The schoolhouse, my friends."

A sigh of relief went up. Hamlet was himself again.

He gazed serenely around. The light of triumphant self-confidence was enthroned upon his brow.

"And the woolbark."

That is when he lost consciousness.

**The Picture that Won a Wife a Divorce.**

Calabazas "home" of bride of few weeks, which she made Exhibit A in her divorce action yesterday. The court ruled that she was justified in leaving her husband, especially in view of the many hardships she related.

**ROCKS IN THE WAY OF "PARALLELING."**

**TESTIMONY AT CONDEMNATION HEARING SHOWS SOME.**

Hallmark Commission Engineer Places Cost of Proposed Taking Over of Edison Properties at Figures Longer than City's Bond Fund Reported as Available.

Commissioner E. O. Edgerton of the State Railroad Commission yesterday finished the introduction of that body's testimony in the Southern California Edison Company hearing, and after the cross-examination of Richard Sachse, chief engineer of the commission, and his assistant, George R. Maxwell, way was cleared for the city to proceed.

Yesterday was a hard day for the city, for the figures introduced by Engineer Sachse point to a stormy time before the city can parallel the existing lines.

In his testimony Mr. Sachse stated: "In this particular case our reproduction cost, new figures, may be considered a measure of what it would reasonably cost the city of Los Angeles to duplicate the plant it seeks to condemn." He fixed this cost at \$4,866,399.42 and stated the depreciated cost of the system is \$2,536,084.51.

In figuring this reproduction cost, new Mr. Sachse is within 10 per cent of the claim of the Edison company's experts.

Mr. Sachse's figure, however, is based entirely upon the cost of the plant, and does not take into account severance damages or other value. He claims that the commission itself to reach by consideration of the testimony.

The Edison company in its original statement of the case set forth a cost for its entire system of \$25,569,229.04, while Mr. Sachse in his testimony gave the entire cost at "approximately \$25,000,000."

The difference between the company's figure of new cost for the city system and that set out by the engineer, though slight, probably will be eliminated, for late in the afternoon at the request of counsel for the city Engineer Maxwell promised to bring in certain figures in regard to cost of lamps on consumers' premises and other property not previously considered, but put into the Edison estimates.

When this is completed the Edison figures and those of the commission probably will be practically the same. The testimony that it will take more than \$4,866,399 to parallel the Edison system is considered significant in that Engineer Scattergood is on record before the Merchants' and Manufacturers' Association as stating that the city will have \$4,500,000 from the present power bonds with which to build a distributing system after the plants are completed and out of this must be set aside \$750,000 to build other distributing systems in Hollywood and Highland Park.

**SELECT YOUR Overcoat from this special lot at \$15.00**

They are exceptionally good values in styles for men and young men.

The sizes are 33 to 46—and the picking is unusually fine. Some of the coats are in the window now.

EXPERT GIVES OPINION  
ON THE NEW GOLF RULES

BY NORMAN MACBETH.

ONE cannot express a very certain opinion of the United States Golf Association's new definition of an amateur as the full text of the regulations has not been given in the Associated Press dispatches. The report in Sunday morning's Times is evidently confined to the most important of the new rulings, under which amateurs "are prohibited from accepting or holding any position as agent or employee that includes as part of its duties the handling of golf supplies, or their engaging in any business wherein their usefulness or profits arise because of skill or prominence in the game of golf."

## BIG CLUBS MUST REQUEST WANTED

BY A. P. MERRILL.

CINCINNATI (O.) Jan. 19.—The United States Golf Association and the American Golf Association must ask permission to have their players on the tour, in order to avoid the penalty of being considered professionals.

One is apt, upon first reading the dispatch, to presume it will put a number of golfers out of the amateur ranks, but after thinking it over a person does not know more than three or four men who will be affected, and the more I think of it the better the ruling seems to be.

I am considering golf solely as a recreation, and if people play golf because it is remunerative, or if they could not enjoy the game unless it were remunerative, I think they are outside the ranks of those who do the game as a recreation.

The right of the player to handle golf supplies, then he is being paid for his golfing experience and cannot consider that his connection with the game is one of free choice. If a man engages in a business wherein his usefulness is dependent upon his skill as a golfer, then one must infer that he no longer treats golf as a recreation.

He must play, or his usefulness disappears and we can presume he will lose his business connection.

## A FINE POINT.

I do not think the rule is applicable to a golfer who is connected with a business which has a golf supply department unless he actually handles the goods over the counter, so to speak, or unless he has been employed because of skill or prominence in the game.

A man who is a partner in a sports supply business would not, to my mind, be affected by the rule, whereas the manager of his golf supply department would be.

Everyone will welcome legislation tending to keep the game from becoming mercenary, and the new rule as far as one can judge it is quoted in Sunday's Times does not seem to prevent people competing in amateur tournaments who are really paid for their connecting themselves with golf.

## A NEW ORDER.

The rule does not suggest that these people should not continue as members of country clubs, and I

GOLF TOURNEY  
IS UNCERTAIN.

Midwick will go South if it is at All Possible.

Stiff League Rule Concerning Forfeiture.

San Gabriel Club Sends Out Neat Cards.

BY ALMA WHITAKER.

The outlook is a little gloomy for the opening of the Coronado invitation tournament today. There were no trains, telephone wires, or even automobile transport yesterday. But the Santa Fe was optimistic about a train this morning, and at least a score of players will get down in time for an eighteen-hole afternoon qualifying round, if it is humanly possible.

For, you see, there is that rule about no postponements. Elmer Williams, Midwick's representative, was adamant on that point at the golf

club. The ladies' tournament at Midwick had to be postponed again on account of the same conditions. All being well it will be played next Tuesday.

Another new golf course is being laid out at San Gabriel. It is installing it, and a club has been formed which already boasts forty members from surrounding cities, like Oxnard.

The course will have all the benefits of seaside conditions and the first six holes are to be ready by April 1.

Business: Money, Stocks, Bonds—Trade—Local Produce Market—Citrus Market

**FINANCIAL.**  
**OFFICE OF THE TREASURER.**  
Los Angeles, Jan. 19, 1916.  
Bank deposits yesterday were \$2,444,207.81, a decrease of \$401,838.02 compared with the corresponding day last week.  
Monday, Jan. 18, 1916. 1914.  
Tuesday, Jan. 17, 1916. 1915.  
New York Money Market.  
[BY A. P. NIGHT WIRE.]  
NEW YORK, Jan. 18.—Mercantile paper, 30% 3/4. Sterling, sixty-day bill, 4 1/2%; demand, 4 3/4%; cables, 4 7/8. Bar silver, 50%; Mexican dollars, 45%. Government bonds steady; railroad bonds, irregular. Time loans easy; sixty and ninety days, 2 1/2 to 2 3/4; six months, 2 3/4 to 3. Call money, steady; high 1 1/2; low 1 1/4; ruling rate, 1 1/2; last loan, 1 1/2; closing bid, 1 1/2; offered at 1 3/4.

**Stocks and Bonds.**  
**BEAR MOVEMENT IN WALL STREET.**  
CHANGES MADE ARE MOSTLY TO LOWER LEVELS.  
Local buyers reported to have taken large amounts of American securities from Europe, all which has acted as a deterrent to reinvestment demands.

[BY A. P. NIGHT WIRE.]  
NEW YORK, Jan. 18.—Trading today was more circumscribed and changes, mainly to lower levels, resulted largely if not wholly from bearish encroachment. Among the trading element there seemed to be an excess of pessimism. Local market has taken large amounts of American securities from Europe since the beginning of the year and this has acted as a deterrent to the usual January reinvestment demand. Rails, with a few exceptions, show backwardness, despite excellent earnings and speculation, aside from a few of the closely held and high priced issues, yield more easily to pressure.  
Mercantile Marines were again the dominant feature, the turnover in common and preferred shares completely dwarfing dealings in former leaders. Marine common made the new record of 25 1/4 on its advance, but the preferred stock fell under weight of profit taking, declining 1 1/2 to 24 1/4, or 5 under its recent peak of 29 1/4.

United States Steel, in which the trading was smallest of any for weeks, declined to 22 1/4, after a brief rally to its recent minimum. Bethlehem steel was extremely variable, at one time rising to 40, then falling to 35, but closing at 40.  
Sugar shares and fertilizers moved to higher quotations, obviously in consequence of manipulation. United States Industrial Alcohol featured the erratic dealings of the final hour, making an extreme gain of 1 1/2 to a net record of 14 1/2. The closing was irregular, with partial recoveries from lowest priced sales of 10 1/2 to 11 1/2 were 500,000 shares.  
Bonds were inclined to ease off with increased activity. Anglo-French 4 1/2% total sales of bonds, par value, amounted to \$4,075,000. United States bonds were unchanged.

**COMPARISON OF BOND SALES.**  
Total sales, Jan. 18, 1916. \$4,075,000.  
Same day of week last year. 3,000,000.  
Same day of week 1915. 2,900,000.  
Same period in 1915. 22,000,000.

**COMPARISON OF STOCK SALES.**  
Total sales, Jan. 18, 1916. 832,200 shares.  
Same day of week last year. 370,112 shares.  
Same day of week 1915. 370,112 shares.  
Same period in 1915. 2,869,870 shares.

LANDSLIDE OF NOMINATIONS.

Entries in "Times" Campaign Flood Headquarters.

Watch for List of Aspirants, to Appear Tomorrow.

Fine Cars, Offered as Prizes, may be Inspected.

Samuel V. Prichard, Who has been named the Rhodes scholar for California. He is an Occidental boy.

Honor. OCCIDENTAL BOY RHODES SCHOLAR.

CHOSEN FOR CALIFORNIA OVER FIVE OTHER YOUTHS.

Fifteen-hundred-dollar Privilege at Great English University for Young Man Who Works His Way Through School and Stands Out Rather than Accept Any Help.

The students at Occidental College were much excited yesterday when a telegram came from President Wheeler of the University of California announcing that Samuel V. Prichard, a junior at Occidental, had been selected by a committee of the Rhodes scholars for California.

Sixteen automobiles that will be given as prizes are also attracting much attention from all sides. Several of the automobiles are on display at the headquarters of the campaign.

By a glance at the list of prizes the adjoining column it will be seen that the prizes are of great value and variety.

In the 118 offer mentioned above it should not be understood that the 20,000 extra votes mentioned in all the other offers are for the same purpose.

Any of these points that a candidate does not fully understand will be gladly clarified if she will write or phone the campaign manager.

While many young ladies have announced their desire of winning the first automobile, this should not be taken as a sign of ambition.

It requires no money to enter and will cost nothing later. The only requirement is that the candidate must be a young woman.

The automobile is absolutely free to those who secure the most votes in the campaign. Only a few short weeks of time are necessary to secure the prize.

Below is a nomination blank that will start you off. Don't put it off until tomorrow. Do like the devoted little mother from Erin who took her baby for an outing, which he failed to appreciate, showing his lack of appreciation by howling strenuously most of the time.

Say to yourself: "I'm going into this campaign to win and, ding it! I will win!"

Not Gray Hairs but Tired Eyes. make us look older than we are. Keep your eyes young and bright with the new eye drops.

## Public Service: City Hall, Courts.

At the Courthouse.

BEQUEST TO CHEER  
POOR IN GERMANY.AMONG GIFTS TO CHARITY IN  
WILL WOMAN LEFT.

Cash Goes to Many Relatives of  
Deceased in Two Countries, to In-  
stitutions of Los Angeles and to  
Provide Christmas Festivity in a  
Tuition City.

The will of Mrs. Wilhelmina Philip-  
pi, which has been filed for probate,  
makes liberal provision for relatives,  
and bequeaths a considerable sum to  
charitable and benevolent institutions.  
The cash bequests are \$3000 each to  
the following nephews and nieces:  
Fred Burkhardt, a watchmaker of  
Lone Pine; Mamie Tobin of Berke-  
ley; Carrie Williams of Oakland;  
George Paas of San Francisco; \$500  
to Adolph Burkhardt, a nephew;  
\$1000 to Minnie Philipp, a niece;  
\$2000 to Mrs. Kate P. Gordon, a niece  
of Monte Vista; \$500 to Peter Ting,  
a nephew; \$1000 to Margaret Ting  
of Germany; \$1000 to Elizabeth Kin-  
sen, a sister-in-law of Germany; \$500  
to John Philipp, a nephew, of this  
city; \$1000 to the children of  
Anton Philipp; \$500 to the son-in-  
law of Johann Philipp of Germany,  
the name to be ascertained.

In addition bequests were made to  
the following: \$200 to the sick benefit  
branch of the Turnverein Germania  
of this city; \$200 to the Little Sisters  
of the Poor Home for the Aged; \$200  
to the Los Angeles Orphans' Home  
Society of Los Angeles; \$500 to the  
German Ladies' Benevolent Associa-  
tion of Los Angeles; \$1000 to the Ger-  
man Hospital Association of Los An-  
geles; \$500 to the German-Austro-  
Hungarian Relief Society of Los An-  
geles; \$500 to the German-Austro-  
Hungarian Relief Society of Los An-  
geles; \$100 to the Brownson  
House Settlement; \$500 to the Pion-  
ner Society of Los Angeles.

Mrs. Philipp left \$250 for the  
upkeep of the graves of her parents  
in Tubingen, Germany; \$6000 for a  
mausoleum in Rosedale Cemetery,  
where her ashes are to be placed. She  
also gave \$6000 in trust with the  
Mayor of Tubingen, the income to be  
spent in making merry Christmas for  
the worthy poor of that city. The  
fund is to be called the Burkhardt-  
Philipp Stiftung.

The residuary of the estate, value not  
given, is to be divided into three equal  
parts and given to the relatives of her  
deceased husband, other relatives and  
Karl Langen, whose ashes are to rest  
in the mausoleum.

## BEATEN BY LETTER.

IN FIGHT FOR ESTATE.  
Frank W. Derby, who sought to get  
a share of his father's estate, was de-  
feated by the production of a letter  
it is said he wrote to his sister, Miss  
Mary Derby, in May, 1910. Francis  
T. Derby, the father, died at Gales-  
burg, Ill., in 1906. He left an estate  
of \$60,000. Frank Derby charged his  
brothers and sisters with having  
his share of the estate was \$1000; that  
the estate had decreased in value by  
reason of the payment of claims.

The brothers and sisters offered his  
letter, which stated that when he ap-  
plied to his father for a loan the lat-  
ter wrote back saying he need never  
ask him for any more money, as he  
had got more of the estate than the  
others would get; that there was  
nothing for him, as he had used up  
his share.

The contest was heard in Judge  
Wellborn's court, who decided in favor  
of the brothers and sisters, William  
W. Derby, Mary L. and Elmina  
E. Derby.

## CASE VANISHES.

ALSO HER HUSBAND.

"Well, what do you know about  
that," quipped probably Mrs. Myrtle V.  
Bush exclaimed one morning two  
years ago when she entered her  
husband's restaurant, a small  
town in Wyoming and saw that  
the cash register had been broken  
open and its contents taken. There  
were all the marks of a bandit hav-  
ing been at work. The cowboy cus-  
tomers of the restaurant, who crowd-  
ed around, probably thought so, too,  
but when Mr. Bush failed to appear  
in time to cook the bacon and flap-  
jacks for the cowboys' breakfast, Mrs.  
Bush speculated along another line.  
She told the story of the looting of  
the cash register in Judge Wood's  
court yesterday, in her divorce pro-  
ceedings. She said Mr. Bush was a  
cook and she was the cashier; in fact,  
she was cashier, and a piquant one,  
when he married her. It was usual  
for her to place her jewelry in the  
cash register every night, where it  
reposed with the money. The jewelry  
as well as the cash was gone on the  
morning of the robbery. She said she  
never saw her husband again. The  
court continued the case until April  
8 for further evidence.

## MUCH TO DAUGHTER.

GIVEN BY MOTHER'S WILL.

Mrs. Isabella C. Mattern, who died  
the 9th inst., gave the bulk of her  
\$12,000 estate to her daughter, Mrs.  
Jennie P. States, under her will pro-  
bated yesterday. The petition was  
filed by Henry J. Mattern and the Ger-  
man-American Trust and Savings  
Bank.

In the property listed are the prem-  
ises at Thirty-seventh place and Nor-  
mandie avenue, valued at \$6000. The  
personal property includes notes and  
mortgages. To the son, Theodore C.  
Paulsen, is bequeathed \$1200. Amy  
Paulsen and Helen I. States, grand-  
children, were given \$600 each. This  
money is to be placed in a savings  
bank and the principal and interest  
paid them when they reach their ma-  
jority. Mr. Mattern is bequeathed  
\$1000.

## CHANCE FOR LADS.

WHO HAD POOR START.

Pedro and Bartola Gutierrez, the  
one 9 and the other 6 years old, never  
had a chance in life. They did not know  
where their mother was; they had never  
seen their father, and they had never  
learned where they were born. They  
city officers took them out of a home  
said to have been squalid. An old  
woman said she was their grand-  
mother, but probably she did not  
receive satisfactory information when  
they investigated the case.

Notwithstanding these adverse cir-  
cumstances the brothers have grown  
into handsome lads. Judge Reeves  
said they will have their chance, and  
yesterday he made an order admitting  
them to St. Catherine's Home for  
Children at Anaheim.

## WIFE THE PRETTIER.

JUDGE AS BEAUTY EXPERT.

Judge Wood posed as a connoisseur  
yesterday when Mrs. Fay E. Jamison  
showed him a picture of her husband's  
alleged affinity.  
"He showed bad judgment," re-  
marked Judge Wood, comparing the  
photograph with the wife.  
Mrs. Jamison testified Mr. Jamison

represented to her that he was a grad-  
uate West Point. She said she did  
not learn to the contrary until after  
they were married, and forgave him,  
but she said he would not work, much  
of his time being passed in strolling  
around town. When he came home,  
she said, he would tell her of his con-  
quests. The decree was granted on the  
ground of desertion.

## GETS FINAL DECREE.

HEIRESS WINS FREEDOM.

Mrs. Sara B. de Freeman, one of the  
heirs of Arcadia B. de Baker, was  
granted permission by Judge Wellborn  
yesterday to file a final decree of di-  
vorce. The application had been op-  
posed by Frank B. Freeman, from  
whom she obtained an interlocutory  
decree of divorce in 1907.

The attorneys for Mrs. Freeman told  
the court that failure to ask for a final  
decree a year after the interlocutory  
was granted was due to error. Mrs.  
Freeman said her wife had persuaded  
him to consent to the suit. He wanted  
the case reopened so that he could  
make a defense. Mrs. Freeman re-  
ceived a large share of Mrs. de Baker's  
\$7,000,000 estate.

## INS AND OUTS.

ABOUT THE COURTS.

HIS FAILING. Four times has  
Charles Andy, 11 years old, gone driv-  
ing in a buggy without asking the  
permission of his mother, and he has  
promised not to do it again, but he just  
can't resist it when a good horse is left  
unattended. Yesterday he was in the  
court, and again, to the chagrin of his  
mother, Judge Reeves sent him to Juvenile  
Hall for eight weeks, where his mental  
and physical state will be looked into.

HUMILIATED HIM. Two years  
ago Mrs. Mamie E. Burr said she went  
to the place where her husband worked  
and asked for his check, she testified  
in her divorce proceedings yesterday,  
and did not get it. That night Mr.  
Burr upbraided her for the act, saying  
he humiliated him. He left home the  
following day, and she said she has  
not seen him since. The decree was  
granted.

MUST KEEP GOOD. To make sure  
he would not forget the terms of his  
probation, Judge Reeves yesterday  
gave Claude Perdus a written copy of  
them and released him. He must not  
enter a poolroom for a year. Claude  
was a friend of Mamie Sweasee's,  
17 years old, whose escapades have  
kept the juvenile authorities on their  
jumps. It was thought he might  
have some knowledge of her where-  
abouts, as she has apparently disap-  
peared. Mrs. Perdus said she had  
Sweasee, who was sent to the State  
School at Whittier, escaped from that  
institution last Wednesday and officers  
are seeking to learn who aided her.

## INCORPORATIONS.

Hyden Hard-

Company, incorporators J. L.  
Waring, W. B. Hyden and M. A. War-  
ing, capital stock \$10,000, subscribed  
\$2; Lundquist Engine Company, in-  
corporators W. B. Lundquist, I. H.  
Bardwell and L. W. Wheaton, cap-  
ital stock \$10,000, subscribed \$10; A. G.  
Faulkner Company, Inc., incorpora-  
tors A. G. Faulkner, Howard E. Resch,  
Helen O'Neil, M. Smith and R. J. Baker,  
capital stock \$75,000, sub-  
scribed \$5; San Gabriel First Meth-  
odist Episcopal Church, incorporators  
Charles W. Beatty, John C. R. H.  
Johnson, H. A. Northrup, N. A. Strain,  
John E. Hedman and P. O. Cole, no  
capital stock.

## LAW VS. MANHOOD.

STEP-CHILDREN THE ISSUE.

Mrs. M. Horton declared he is not  
able to support his wife's children by a  
former marriage. Mrs. Horton stated  
he knew she had the children when  
he married her and that they, being  
minors, would depend upon him for  
support.

The question whether a man should  
be compelled to support his step-  
children was put up to Judge Will-  
born yesterday in Mrs. Horton's separate  
maintenance suit, based on desertion.  
Technically, the court supposed, the  
law of California does not compel a  
man to support such children, but he  
added, "If he is any kind of a man  
he will do it anyhow." He held Mr.  
Horton had deserted his wife and or-  
dered him to pay her \$50 a month for  
her support.

## LINES ARE OUT.

Telegraph Companies Forced to De-

tour Eastern Wire Service.

The Western Union and Postal  
Telegraph companies yesterday were  
forced to detour nearly all their long-  
distance service and were completely shut off  
from San Diego and the south. Four-  
teen poles and all wires are gone at  
Butler on the Santa Fe, washed out  
by the overflow of the San Gabriel  
River.

Eight wires on the Salt Lake route  
between Winnville and Pledley west of  
Riverside are gone. Wire trouble that  
cannot be reached at present exists  
at Hobart, Capistrano, Oceanview, Del  
Mar and Sorrento. The business of  
the companies was not seriously in-  
terfered with, except to San Diego,  
as good alternate routes were avail-  
able for detour.

## On Public Utilities.

The Public Utilities Board consid-

ered the Council's request yesterday  
for an ordinance to compel the dis-  
tribution of natural gas, and it was  
referred to the committee on certain  
legal aspects of the situation are  
cleared up in pending litigation. The  
Council resolution directing that pro-  
ceedings be brought before the State  
Railroad Commission for 5-cent fares  
to certain parts of Hollywood and on  
the Glendale line of the Pacific Elec-  
tric and the Mayor issued a call  
Howell, with instructions to furnish  
data needed by the City Attorney to  
prosecute the case.

## Municipal Programs.

Action on the application of R. H.

McCray, contractor, for acceptance of

WANT FREE LUNCH  
OF COLD VIANDS.RESTAURANT MEN ASK ORDER  
TO BAR HOT MEALS.

Police Commission Receives An-  
other Petition from Food Par-  
vopers, Complaining Against Com-  
petition from Saloons Which Fur-  
nish Near-Drinks with Drinks.

Another anti-free-lunch petition,  
signed by representatives of 352 res-  
taurants and cafeterias, was presen-  
ted to the Police Commission yester-  
day. The petitioners say that the av-  
erage free lunch given by Los Ange-  
les saloons amounts to a "squalid, hot  
meal" and it is served at a price  
which the restaurant men cannot  
hope to meet. They ask that free  
lunches be confined by the Police  
Commission to cold viands consist-  
ing only of "cheese, crackers, sausage,  
pickles, radishes, bread, etc."

The commission referred the subject  
to the committee of the whole for a  
conference later with the Council  
and the City Attorney, when it is pro-  
posed to agree upon a policy of lim-  
iting the menu. The Police Com-  
mission believes it has the legal  
power to make any rules it de-  
sires, but in view of the fact that by  
rendering the people have voted for  
free lunches in saloons, the commis-  
sion proposes to sound public senti-  
ment carefully before acting. Indi-  
vidual representatives of the saloon  
interests have told the Mayor that  
the saloon men are willing to be told  
that they must limit their free  
lunches, but if any order is made they  
want it enforced uniformly.

## SALARY REVISION.

LEAGUE INVESTIGATING.

A special committee of the Muni-  
cipal League which is working for  
standardization of city salaries, met  
yesterday afternoon and instructed  
Secretaries Simons and Patton to make  
an initial payment of \$25,000. Since  
then it has been paying at the rate  
of \$20,000 per month. The water re-  
venue of the district has been prac-  
tically kept up these payments, but have  
not provided for the initial payment  
of the \$25,000.

## NORMAN LAWLER DIES.

Norman Lawler, brother of Oscar

Lawler, prominent Los Angeles art-  
ist, passed away last night at the  
home of his mother, Mrs. W. T.  
Lawler, No. 353 West Forty-first  
place. Mr. Lawler was 43 years old.  
He leaves a widow and 3-year-old  
daughter, Jane. The end came follow-  
ing a long illness that developed from  
an infection received while in  
Mexico two years ago.

## FIRE HAZARD REPORT.

CHIEF COLLECTS DATA.

Fire Chief Eley's report on the con-  
dition of fire hazards in the business  
district was made yesterday. He re-  
ported that he is gathering data from  
other cities with a view to present-  
ing a statement to the City At-  
torney with the report a supplementary  
statement suggesting ways and means for  
correcting the evils noted by the re-  
porter. In connection with the pre-  
paration of this report, it is under-  
stood that Chief Eley and his as-  
sistants have issued notices to owners  
and occupants of several buildings to  
make necessary repairs and altera-  
tions to insure greater safety from fire,  
or panic.

## Officials to Talk Shop.

Occasional municipal luncheons and

conferences are suggested by Mayor  
Sebastian as a means for developing  
a better understanding and more ac-  
tive co-operation between the various  
administrative departments of the  
city, and the Mayor issued a call  
yesterday for the first of a series to be  
held at the Hollenbeck Cafe tomor-  
row at noon. Active heads and chief  
deputies of each city department are  
invited, and Chief Electrical Engineer  
Seabrook of the Public Service Board  
will explain briefly some of the  
plans and problems of the Power Bu-  
reau.

## On Public Utilities.

The Public Utilities Board consid-

ered the Council's request yesterday  
for an ordinance to compel the dis-  
tribution of natural gas, and it was  
referred to the committee on certain  
legal aspects of the situation are  
cleared up in pending litigation. The  
Council resolution directing that pro-  
ceedings be brought before the State  
Railroad Commission for 5-cent fares  
to certain parts of Hollywood and on  
the Glendale line of the Pacific Elec-  
tric and the Mayor issued a call  
Howell, with instructions to furnish  
data needed by the City Attorney to  
prosecute the case.

## Municipal Programs.

Action on the application of R. H.

McCray, contractor, for acceptance of

the paving of Mission road between  
North Broadway and Baldwin street  
was delayed by City Council action  
until January 26. In the meantime  
members of the Council propose to  
ascertain whether the work is satis-  
factory.

## ARTS AND CRAFTS SALON.

California and Eastern Work to be  
Shown at Museum.

The first annual arts and crafts  
salon, under the general direction of  
Art Curator Maxwell, will be held in  
the main art gallery of the Museum of  
Science and Art, at Exposition Place,  
opening February 4 and closing  
February 27. Both California and  
eastern work will be shown.

The following committees are in  
charge of the various departments:  
Pottery and ceramics, Miss Esther  
Crawford; jewelry and metal work, Dou-  
glas Donaldson; Miss Margaret Tuttle  
and Mrs. Harry Schoeppe; bookbind-  
ing, Miss Charlotte Mitton; embroi-  
deries and textiles, Mrs. Douglas Don-  
aldson; Miss Emma Waldvogel and  
Mrs. Ralph Johannot; oriental rug,  
E. G. Massanough; Miss Leta Hor-  
locker; miniatures, Miss Laura M.  
D. Mitchell; tiles, Miss Olive New-  
comb; Margaret Donaldson and Ernest  
Hatchelder; wood, art and  
crafts department of the city and  
county schools, Miss Belle Whittier;  
stained glass and murals, James F.  
Weston, Louis Fleckenstein, Miss Mar-  
grethe Mather and Ernest Williams.

The American Federation of Arts  
at Washington, D. C., has made a  
special collection of work by students  
and graduates of the Pennsylvania  
Museum School, hand-made lace from

## We'll Soon Know What He Looks Like.

Neckwear from the collection of Chesterton Hay.

Reproduced from the Perfect Gentleman's Magazine for the current month  
by Al Palla, the noted society artist. In presenting his search for the  
Hay party Mr. Palla fell off the fire escape and was still a little stiff yes-  
terday. This accounts for the somewhat stiff appearance of the group.

## Bond Election.

(Continued from First Page.)

ready one of the choicest beauty spots  
of Southern California, with an  
abundance of water at a very reason-  
able rate at its command it will be  
enabled to still further enhance its  
loveliness by the spread of verdure  
of trees and shrubs and flowers. Safety  
from fire is also a big element in the  
forward step that has just been taken,  
and general convenience in providing  
ample water for street sprinkling and  
flushing and for all manner of do-  
mestic uses—while the rate is to be  
practically cut in
